EMPLOYMENT

Postdoctoral researcher in sustainability economics,
CentraleSupélec, Openlab "Carbon Economics in Mobility"

June 2026 - Ongoing
Gif-sur-Yvette, France

Technical working group expert member,
GHG Protocol

Jan 2025 - Ongoing
New-York, United States, full remote position

Group of experts advising the revision of the GHG Protocol Corporate Standard, with a focus on overarching GHG accounting principles, including coverage, precision, and reporting requirements.

Teaching Assistant,
CentraleSupélec

Jan 2023 - Ongoing
Gif-sur-Yvette, France

- *Upcoming.* Introduction to Economy for Engineers, taught by Prof. Pascal Da Costa (undergraduate level).
- *Upcoming.* Endogenous Growth and the Environment, taught by Prof. Pascal Da Costa (graduate level).
- Circular Economy, taught by Prof. François Cluzel (graduate level).
- Sustainability of Complex Systems, taught by Prof. François Cluzel (graduate level).
- Business Management & Transformation, taught by Prof. Eléonore Mounoud (undergraduate level).

Senior Climate Consultant,
Greenly (Offspend SAS)

July 2022 - June 2023
Paris, France

Led a team of 3 consultants delivering GHG assessment and mitigation strategy consulting to industrial and construction firms, while developing semi-automated tools for emission reduction strategy building and error detection.

EDUCATION

Ph.D. in Environmental Engineering Economics
CentraleSupélec, Université Paris-Saclay

June 2023 - April 2026

Industrial collaboration with Greenly (Offspend SAS)

Thesis title: Do corporate climate ratings advance or hinder the Net-Zero transition? Four essays in sustainability strategy and economics. *To be published shortly.*

Master of Science in Industrial Management, Technical University of Denmark
Depth: Management and Analysis of Operations.

Sep 2020 - Jun 2022

Relevant Coursework: Sustainable innovation, Environmental Ethics, Energy Economics, Feasibility studies of complex systems, Operational research, Robust and stochastic modelling, Network optimization.

Master of Engineering, CentraleSupélec, Université Paris-Saclay

Sep 2018 - Jun 2022

Major: Supply Chain and Operations Management. Bachelor in Engineering completed in Sep 2019.

Relevant Coursework: Optimization, Modeling, Design & innovation, Statistics, Algorithmics, Leadership and communication.

Classes Préparatoires aux Grandes Écoles MPSI-MP, Lycée Henri IV, Paris

2016 - 2018

PUBLICATIONS

Peer-reviewed journal articles

M. Kohler, P. Da Costa, F. Cluzel, L. Umbricht, A review of corporate climate ratings: Assessing divergence from scientific expectations, *Renewable and Sustainable Energy Reviews*, Volume 226, Part C, 2026, 116352, ISSN 1364-0321, <https://doi.org/10.1016/j.rser.2025.116352>.

M. Kohler, N. Costa i Coromina, P. Da Costa, P. Fox Penner, F. Cluzel, Firm-level evaluation of the environmental Kuznets curve: thresholds in cross-sectional data from small, medium and mid-sized enterprises, *Accepted for upcoming publication in the Journal of Cleaner Production*. Working paper version available at <https://hal.science/hal-05170003/>.

In preparation

M. Kohler, D. Lowing, Equity-based additional downstream allocation methods for Scope 3 emissions, *Manuscript expected to be submitted in September 2026 in Ecological Economics*. Working paper version available at <https://hal.science/hal-05640316>.

M. Kohler, P. Da Costa, P. De Kerret, A Cournot oligopoly model for predicting ESG label supply chain propagation under cost heterogeneity, *Manuscript expected to be submitted in September 2026 in the Journal of Mathematical Economics*.

Fox Penner, Bridging the gap between Carbon Accounting and Target-Setting: Evidence from observed corporate emissions, Third International Conference on Action versus Inaction Facing Climate Change (AICC) **2025**, Ecole Polytechnique de Lausanne, Lausanne, Switzerland.

M. Kohler, N. Costa i Coromina, P. Da Costa, P. Fox Penner, F. Cluzel, Firm-level evaluation of the environmental Kuznets curve: thresholds in cross-sectional data from small, medium and mid-sized enterprises, Annual conference of the French Association of Environmental and Resource Economists (FAERE), September 2025, Nantes, France.

M. Kohler, P. Da Costa, Diffusion and effectiveness of environmental commitments in imperfect multi-market supply chains, From Less Bad to Good Enough : annual conference hosted by the Centre for Absolute Sustainability at DTU **2025**, Technical University of Denmark (DTU), Copenhagen, Denmark.

SEMINARS

Oral communication as an invited speaker “A review of corporate climate ratings: Assessing divergence from scientific expectations”, Methodological Monitoring Committee of the Banque de France, Paris, France, February 2026.

Oral communication as an invited speaker “Guide to Climate Labels for CentraleSupélec Students”, Environment Committee of the École normale supérieure Paris-Saclay, Gif-sur-Yvette, France, March 2026.

ACADEMIC SERVICE

Reviewer for Energy Policy

November 2024

SKILLS

Languages French (native), English (fluent, IELTS 8.5), German (B1-B2), Spanish (B1-B2).

Skills Econometry, game theory, business management, environmental accounting, data analysis and visualisation, modelling, optimization, project management, public speaking.

Software Proficient (multiple projects) with Python, Julia, Inkscape, and $\text{\LaTeX}$. Basic proficiency with R, Stata, and SQL.
